shortage of paper has led to a government investigation of the paper manufacturing possibilities in Chils. Paper manufacturing possibilities in Chils. Paper manufacturers of the republic have held several conventions to ascertain the capacity of their factories and grades of paper that can be manufactured in the country.

There are now in Chils nine paper factories with a total production of 5,500,000 kins (of 1.20 pounds) annually. There are capitalized at 5-100 papers and employ 400 men.

It has been developed that the hig factories in Chils can make print paper out of the raw material obtainable in Chils can make print paper out of the raw material obtainable in Chils and they have already begun the output. In the southern part of the republic vast acreage of timberiand produces sufficient pulp wood to supply the needs of the manufacturers for many years.
